

COLLEGE OF
Enterprise &
Development

Lesley Smith | 021 735 494 | LSmith@op.ac.nz

Bachelor of Applied Management

What our students can offer businesses:

- With existing experience in the workplace, our business students are ready to offer and assist with market research, surveys, volunteering at events, and other business related tasks
- Research skills, problem solving, and analytical skills
- The option to conduct research projects on issues or topics as requested

Our business students:

- Take on a 200 hour internship within an organization as part of the Bachelor of Applied Management
- Gain work experience within organisations including Delta, University of Otago, and Cadbury World
- Interact with businesses through a range of projects
- Work alongside businesses building good relations with the industry

Bachelor of Information Technology

What our BIT students can offer businesses:

- Qualified graduates who are eager to give back to the industry, teach those who are following in their footsteps, and who genuinely care about the quality of their work
- Professional Information Technology services from all students
- Highly qualified graduates looking for a place to demonstrate their in-depth skills
- Students with experience in external projects including website design, software engineering, and year-three high level projects such as 'Gaze Control Software' and survey robotics

Our existing connections with businesses:

- Summer job programme which leads to internships within Dunedin businesses
- Women in Information Technology scholarship
- Contacts and ongoing relationships with those in the Information Technology industry
